Subject: Autry National Center; May 14 meeting

Dear Mr. Mukri:

On March 11, 2008, I sent you an email requesting certain matters relating to the proposed expansion of the Autry National Center in Griffith Park. On March 20, 2008, our neighborhood council repeated that request in a letter to Mr. Sanders. We understand the board of commissioners has referred that letter to you for response.

One of the matters requested was a 60 day period for our council to consider such matters as a redrafted or final EIR. Another was for materials relating to any proposed extension of the ground lease.

In a spirit of cooperation with the Department and the Autry we have placed this matter on our agenda for this committee's next meeting in case we will have something from you or the Autry. A copy of that agenda is attached.

This will allow more prompt response by our council than if the material is received after our meeting. However, consistent with our policy of openness to our stakeholders we would appreciate having any materials your department will be providing to us for consideration at our meeting no later than Friday of this week so that they may be put on our website.

Naturally, we are not trying to encourage the Department to act hastily on any matter, and if you can not conveniently provide us with any materials this week for consideration at our meeting next Wednesday that is satisfactory to us.

It simply is that we wish you to understand that we are ready to act with dispatch, within the limits of our procedures and practices.

Of course our PROS committee's meeting is near the end of the month, so that is another opportunity to move this matter forward if that is your desire.

Kenneth E. Owen, Chair, Planning, Zoning and Historic Preservation Committee, Greater Griffith Park Neighborhood Council
