To Whom It May Concern:

I am writing in regard to running for the Greater Griffith Park neighborhood Council. I would like to be considered for the At Large interest Group.

I am seeking the position to be involved more in my community and to volunteer my time and efforts towards making the community I reside in, a better place. I am very committed by nature and would love to dedicate my time, knowledge, and communication skills in order to make a difference in my community.

My background is in acting and I possess a business degree from Colorado University. I currently operate a payroll company in the greater Los Angeles area. I have outstanding communication skills, I am highly motivated, and I get things done. I excel at taking on challenging projects starting from the ground up and building them into successful endeavors. An example of this would be that I was the owner of a successful photography business for 10 years. I've also been an actor for twenty-two years as well.

My goals if elected would be to give my time and business knowledge to GGPNC. I feel that my perspective is unique to the community because I'm a very caring and motivated individual. I can help the community through my own personal creative ideas that are fresh and unconventional at times.

I'm excited about running for this position and I want to lend my time, energy, and clout to the community that I love.

Sincerely,

Rhett Scott Benz
