

Thomas P. Wilson

Candidate Statement

Present GGPNC Board Member – At Large Representative

Introduction

I've been a resident of Los Feliz for twenty years. My production company Nobody Productions has or presently creates media for Variety, Rhino Records, The Independent Film Channel and various other non-entertainment and entertainment related companies.

Past GGPNC Board Member

I have been serving on the GGPNC board since 2006. I am an active member of the Transportation and Zoning committees. I like to drop in on other committees and enjoy working events like the Armenian Festival and the Los Angeles River clean up. I love and enjoy Griffith Park and I like it HOW IT IS... my biggest priority is to maintain the present status and feel of Griffith Park.

Goal

I have and will continue to represent the stakeholders in a very non-political transparent way. I will act as the eyes, ears, and voice for those whom I represent. I am distressed by the degree to which some in our community would like to see development increase. I once overheard someone say they would like to see Los Feliz develop into something along the lines of *The Grove*! I look at the park and our area in general and I see no need for unwanted and unnecessary development.

My Request

Ask these questions of your candidates please... "Would you like to see Los Feliz more resemble something like *The Grove*?" "Do you think increased density is good for this community?" "Are you for preferential parking in any and all cases?" My answer to all of the questions would be a resounding – NO. If this tracks with your vision of our community please consider voting for me to so I may continue serving our community as a member of the GGPNC Board.
